1 [Dynamic modification of XML documents: external application invocation from XML](#)

Ibrahim Cingil, Asuman Dogac, Ender Sevinc, Ahmet Cosar

June 2000 **ACM SIGecom Exchanges**, Volume 1 Issue 1**Publisher:** ACM PressFull text available: [pdf\(132.96 KB\)](#) Additional Information: [full citation](#), [abstract](#), [citations](#), [index terms](#)

In this paper we describe a mechanism for invoking external applications from XML documents and returning the results back into the documents such that it becomes possible to create dynamic XML documents with content fetched from external resources such as remote databases or legacy applications. One possible application is to support dynamic electronic catalogs in XML where the catalog content is automatically and dynamically updated to contain the most recent data external to the document by a ...
